SEVEN SIGNALS. ONE QUESTION: WHAT SHIPS?

1 2 3

Seven signals crossed the threshold today. AI integration leads them.

Miten Mehta - Chief AI Officer

The demo is not the product.
The integration is.

THE OLD VIEW

A pilot here.

1 2 3

The old view kept pilots and models on separate shelves, nothing connected.

ONE INTEGRATION

TEST 1 - ONE DATA SPINE

A data mesh with real lineage, so every answer traces to its source.

1 2 3

Test one. One data spine. A data mesh with lineage, so every answer traces to its source.

ONE INTEGRATION

TEST 2 - SERVING ON GOVERNED RAILS

Model serving with model cards.
Documented, evaluated, owned.

1 2 3

Test two. Serving on governed rails. Model cards, documented, evaluated, owned.

TEST 3 - COST BEFORE SCALE

Cost optimization before the rollout, not after the invoice.

1 2 3

Test three. Cost before scale. Optimise the price before the rollout, not after the invoice.

ONE INTEGRATION

MEASURED ON INTEGRATION

AN OPERATING MODEL

1 2 3

Three tests, one question. Is there an integration, or a collection of demos?

ONE INTEGRATION

MEASURED ON INTEGRATION

AN OPERATING MODEL

MEASURED ON DEMOS

A PILOT GRAVEYARD

1 2 3

Measured on integration, it is an operating model. Measured on demos, a pilot graveyard.

SEVEN SIGNALS. ONE QUESTION: WHAT SHIPS?

1 2 3

The release gate from this week's edition is what lets integrated AI ship safely.

Miten Mehta - Chief AI Officer

AI integration is where enterprise AI is won.
Ship through the gate.
