THREE NEW SIGNALS. ONE QUESTION: WHAT SHIPS?

1 2 3

Three employers named AI engineering productivity this week. The market is hiring for it.

Productivity is measured where value lands.

1 2 3

Productivity is measured at the point of value, not the point of effort.

THE OLD VIEW

Models shipped.
Tokens consumed.
Copilots deployed.

ACTIVITY, NOT OUTPUT

1 2 3

The old view counted demos, tokens and copilots. Activity, not output.

THREE TESTS

TEST 1 - SHIPPED

A user and a metric. In production, not on a slide.

1 2 3

Test one. Shipped. A user and a metric, in production, not on a slide.

THREE TESTS

MEASURED AT VALUE

AN OPERATING MODEL

1 2 3

Three tests, one question. Is it value, or is it activity?

THREE TESTS

MEASURED AT VALUE

AN OPERATING MODEL

MEASURED ON ACTIVITY

A PILOT GRAVEYARD

1 2 3

Measured at value, it is an operating model. Measured on activity, a pilot graveyard.

THREE NEW SIGNALS. ONE QUESTION: WHAT SHIPS?

1 2 3

Banks already fund platforms this way. AI engineering deserves the same discipline.
